MarCom, LLC Acquires MSE Laboratory Assets

Butte, Montana – MarCom, LLC announced today that it has finalized an agreement with E Capital Partners, LLC to acquire the laboratory assets from MSE, Inc., and will reopen as MarCom Laboratory Services on November 1, 2017.

“MarCom Laboratory Services is the newest addition to our growing portfolio of services, allowing us to become more diversified while continuing to grow,” said Marcella Medor, MarCom President.

The laboratory will be operated as an SBA-certified Native American-owned, 8(a), and woman-owned business located in Butte, Montana. MarCom Laboratory Services will provide analytical services for water and soil samples for public and private entities. “We believe there is enormous potential in incorporating laboratory services into our existing business model. Our goal is to reach out to the lab’s current customers, our clients and seek new opportunities, allowing the lab to grow into a regional service provider,” said Marc Murphy, the MarCom Chief Financial Officer. MarCom is incorporating MSE’s existing laboratory workforce to provide continuity of service. It will remain open for business during the transition to MarCom Laboratory Services.

MarCom is an SBA-certified Native American-owned, 8(a), and woman-owned business headquartered in Idaho Falls, Idaho, with offices in Butte, Montana. Founded in 2003, MarCom provides management, administrative, engineering, nuclear operations, information technology services, SCADA, and health and safety services to U.S. Department of Energy (DOE) sites as well as commercial customers across the country.
