

Where Technical Expertise Meets Environmental Solutions

Capabilities Statement

Environmental Services
Industrial Hygiene Services
Technical Training
RadWaste Management Support
On Demand Staffing

Business Summary:

MarCom, LLC (MarCom) is a Native American and woman-owned small business, and an Idaho Transportation Department Certified Disadvantaged Business Enterprise (DBE) with offices in Idaho Falls, Idaho; Butte, Montana; and Fort Collins, Colorado. Founded in 2003, MarCom provides environmental services, Certified Industrial Hygiene (CIH) Services, radioactive waste management, and on demand staffing to U.S. Department of Energy sites as well as commercial customers.

MarCom's service approach and reputation is built on technical credibility and provides the highest caliber of qualified individuals for a diverse range of compliance areas. We are also committed to customer satisfaction and strive to be the supplier of choice. To achieve the operational excellence required to meet this goal, we align our business systems and readily adapt our operations to help meet milestones and schedules. Due to exemplary services performed, MarCom was awarded DOE's Small Business of the Year Award for 2019.

Core Capabilities:

Environmental Sampling and Remediation—Industrial Hygiene Services—Technical Training—Project Management—Chemical Management—Radioactive Waste Characterization—On Demand Staffing

Expertise:

- Phase I, Phase II, Phase III Environmental Site Assessments (ESA)
- Ground Water Monitoring Program Design and Implementation
- Remedial Pilot Testing and Design Services
- Data Management Services
- Stormwater Pollution Prevention Plans (SWPPP)
- Spill Prevention, Control, and Countermeasure (SPCC) Plans
- Industrial Waste Characterization
- Waste Management and Disposal Services
- Site Reclamation and Inspection Services
- Air Discharge Permitting and Compliance
- Aerial Inspection and Imaging Services
- Regulatory compliance and support
- Remedial Design/Implementation
- Technical Report Preparation and Submittal
- Environmental Sampling of Soil, Air, Groundwater, and Surface Water
- Asbestos Services and Training
- Certified Industrial Hygiene (CIH) Services and Consulting
- Project-Specific Regulatory Compliance Plans
- Nuclear Engineering/Radioactive Waste Management

Environmental Services

Environmental services offered include environmental site assessments, environmental compliance, field sampling and data analysis, remediation, waste management, and regulatory reporting. MarCom can address a wide range of environmental needs, from initial site assessments, soil and groundwater sampling, field remediation, remedial system design, operation, and maintenance, to reporting, and site closure. We can also serve as a regulatory liaison for your project from start to finish.

- Phase I, Phase II, and Phase III Environmental Site Assessments (ESA)
- Site investigations and associated data analyses for petroleum hydrocarbons and other contaminants
- Project-Specific Regulatory Compliance Plans
- Environmental sampling of soil, air, groundwater, and surface water
- Exposure pathway assessments
- Environmental sampling of TCLP, Total Metals, and PCBs
- Remedial pilot study design and implementation
- Remedial design and implementation
- Regulatory compliance and support
- Technical report preparation and submittal
- Management of radioactive, hazardous, mixed (radioactive/hazardous) waste, and industrial waste
- Fate and transport modeling

Industrial Hygiene Services

Industrial Hygienists are trained to anticipate, recognize, evaluate, and recommend controls for environmental and physical hazards that can affect the health and well-being of workers. Industrial Hygiene Services offered by MarCom include:

- Certified Industrial Hygienists (CIH)
- AHERA Certified Asbestos Inspectors and Project Designers
- Asbestos renovation and abatement oversight
- Exposure assessments: heavy metals (lead, arsenic, cadmium, mercury, manganese, hexavalent chromium (Cr6), silica, carbon monoxide, hydrogen sulfide, formaldehyde, solvents, ionizing and non-ionizing radiation and more
- Heat Stress Evaluations and Recommendations
- Asbestos air sampling
- Workplace (breathing) air quality services
- Chemical exposure monitoring
- Health and Safety Plans
- Regulatory compliance and support
- IAQ evaluations
- Noise exposure monitoring: noise characterization, noise mapping, and personal noise sampling
- Office and industrial ergonomics

MarCom can support your regulatory safety and health needs: OSHA, MSHA, and EPA.

Technical Training

MarCom provides technical training for its clients and the Eastern Idaho Region. These trainings are provided by highly qualified personnel who meet standards to teach each specific course. MarCom's technical training capabilities include:

- AHERA Asbestos Worker, Contractor Supervisor, Inspector, and Project Manager Initial and Refresher Trainings
- Respirator Training and Fit Testing
- Regulatory Training
- OSHA HAZWOPER 40 hr., 24 hr., and 8 hr. Supervisor Initial, 8 hr. Supervisor Refresher, and 8 hr., 40 hr. and 24 hr. Refresher
- Industrial Training

Technical Waste & High-Level Waste Management Services

MarCom supports a wide range of waste management projects and tasks for DOE facilities. Waste management technical capabilities include waste characterization, data analysis, evaluation of treatment options, evaluation of packaging and transportation requirements, and disposal of radiological material. MarCom personnel have experience in analyzing and creating design requirements for shielding, evaluating, and characterizing radiological waste components and containers, as well as preparing technical evaluations and reports for waste generation, characterization, process knowledge documentation, transportation compliance, and disposal. The radiological waste that has been evaluated includes contact-handled and remote-handled, low-level, transuranic, and mixed waste. MarCom personnel have training and experience in completing radiological shielding and dose rate analyses utilizing the most current MicroShield® software and associated tools. Additional capabilities include providing packaging and transportation compliance support and managing legacy waste information, in addition to aiding project management in development of project execution plans and annual summary reports. Waste management technical capabilities include:

- Waste characterization
- Data analysis
- Technical evaluations involving treatment options, packaging, and transportation requirements
- Disposal of radiological material
- Providing packaging and transportation compliance support
- Managing legacy waste information
- Project management support aiding in the development of project execution plans and annual summary reports
- Experience in detection system procurement and accompanying procedural development

Past Performance:

Clients Include: DOE, DOD, Battelle Energy Alliance, USDA Forest Service, Idaho Environmental Coalition, Fluor Idaho, APTIM, and Four Rivers Nuclear Partnership. Awarded DOE's Small Business of the Year Award for 2019.
