Native American and Women Owned
8(a) Small Business

MarCom Business Summary:

MarCom, LLC (MarCom) is an SBA-certified, Native American-owned, 8(a), and woman-owned small business with offices in Idaho Falls, Idaho, Butte, Montana and Fort Collins, Colorado. Founded in 2003, MarCom provides environmental services, radioactive waste management, on demand staffing, radiological technical support services and information technology services to U.S. Department of Energy sites as well as commercial customers.

MarCom's service approach and reputation is built on technical credibility and provides the highest caliber of qualified individuals for a diverse range of compliance areas. We are also committed to customer satisfaction and strive to be the supplier of choice. To achieve the operational excellence required to meet this goal, we align our business systems and readily adapt our operations to help meet milestones and schedules. Due to exemplary services performed, MarCom was awarded DOE's Small Business of the Year Award for Fiscal Year 2019.

MarCom Core Capabilities:

Environmental Remediation / Environmental Services / On Demand Staffing

MarCom Expertise:

- Phase I, Phase II, and Phase III Environmental Site Assessments (ESAs).
- Ground Water Monitoring Program Design and Implementation
- Remedial Pilot Testing and Design Services
- Data Management Services
- Storm Water Pollution Prevention Plan (SWPPP)
- Spill Prevention, Control, and Countermeasure (SPCC) Plan
- Industrial Waste Characterization
- Waste Management and Disposal Services
- Site Reclamation and Inspection Services
- Project- Specific Regulatory Compliance Plans
- Nuclear Engineering and Radioactive Waste Management
- Air Discharge Permitting and Compliance
- Site Reclamation and Inspection Services
- Aerial Inspection and Imaging Services
- Project-Specific Regulatory Compliance Plans
- Regulatory compliance and support
- Remedial design and implementation
- Technical report preparation and submittal
- Environmental sampling of soil, groundwater, surface water, and air
- Fate and transport modeling and exposure pathway assessments
- Remedial pilot study design and implementation
- TENORM Screening and Waste Management

Environmental Services

Environmental services offered include environmental site assessments, environmental compliance, field sampling and data analysis, remediation, waste management, and regulatory reporting. MarCom can complete any of your environmental needs, from initial site assessments, delineation and sampling of soil and groundwater, field remediation, remedial system design, operation, and maintenance, to reporting, and site closure. We can serve as a regulatory liaison for your project from beginning to end.

- Phase I, Phase II, and Phase III Environmental Site Assessments (ESAs).
- Site investigations and associated data analyses for petroleum hydrocarbons and other contaminants.
- Groundwater well installation oversight and geological logging.
- Project-Specific Regulatory compliance plans
- Environmental sampling of soil, groundwater, surface water, and air.
- Fate and transport modeling and exposure pathway assessments.
- Remedial pilot study design and implementation.
- Remedial design and implementation.
- Regulatory compliance and support.
- Technical report preparation and submittal.
- Management of radioactive, hazardous, mixed (radioactive/hazardous), and industrial waste.

Engineering and Radioactive Waste Management

MarCom employs engineers with diverse skillsets and disciplines. MarCom's engineers work to a Conduct of Engineering program that can be graded to allow for cost-effective design of simple components yet is robust enough to support the full rigor of NQA-1 compliance. Our engineers have experience providing custom design solutions for the commercial industry in addition to designs supporting nuclear research and cleanup efforts. MarCom's engineers also have experience supporting large scale construction and remediation efforts from project planning to closeout. Whether this be support in the field, acting as liaison between the client, construction/cleanup contractor, and design contractor, or supporting new designs and change.

- Design of engineering systems
- Nuclear Quality Assurance (NQA-1) software design and development
- Legacy waste information management
- Reactor specific environmental impact statement support for wastes generated throughout project life
- Packaging and transportation compliance support and calculations
- Preparing technical evaluations for projects including waste generation, chemical use, and documentation of process knowledge
- Mixed waste treatment and disposal support
- Providing subject matter expert support for the management of remote handled transuranic and low-level waste
- Project management support through the development of project execution plans and annual summary reports
- Providing programmatic support

Radiological Technical Support Services:

MarCom has provided radiological technical support and training services at DOE facilities since 2004. We ensure Project Optimization using the latest technologies and instrumentation such as 3D radiological mapping and characterization to save our customers: Dose, Time, and Money, while also providing superior understandable documentation.

- Project Optimization
- D&D (Deactivation & Decommissioning) Planning and Execution
- Radiological and Environmental Remediation
- ALARA & Rad Planning
- Radiation Protection Program Management & Training Services
- Expertise in Interpretation and applications of 10 CFR 835 and 10 CFR 20, NRC, DOT, EPA, and State Regulations
- On Demand Staffing RCT (Radiological Control Technician) – RPT (Radiological Protection Technician) HPT (Health Physics Technician) – RAD Engineering
- TENORM

Certifications:

- ORAU-ANL Decommissioning Certificate Program
 - RESRAD Software
 - MARRSIM
 - Facility Decommissioning
- Radiation Safety Officer
- NQA-1 Software - Auditor Certification
- Nuclear Materials License, Service Provider License
- DOT, NRC, and IATA Requirements for Shipping Radioactive Materials
- Certified Instructional Trainer (CIT)

Information Technology Services

MarCom has the personnel, expertise, and experience to manage the most demanding cybersecurity, network, and software engineering needs. MarCom has a high-quality professional software development team with experience in a wide variety of applications. The team specializes in database and Web application development. Other services include software development, managed services, desktop technical support, architecture and implementation, server support, custom software development and data base design, intranet, and extranet hosted and integrated solutions.

- Software Development
- Database and Web application development
- Managed Services
- Network architecture and implementation
- Custom software development and database design
- Intranet and extranet hosted and integrated solutions

- An NQA-1 software quality assurance program
- Update legacy applications

MarCom Past Performance:

Clients: (DOE, DOD, Battelle Energy Alliance, USDA Forest Service, Idaho Environmental Coalition, Fluor Idaho, APTIM, Four Rivers Nuclear Partnership etc.) Awarded DOE’s Small Business of the Year Award for Fiscal Year 2019
